

For the following cases below, the following assumption is made:

**Assumed app is open**

### Scenario 1: View Map

User Intention	System Responsibility
	Show global heatmap with default filter
View global heatmap	

### Scenario 2: Enable Voice Recognition

User Intention	System Responsibility
	Show global heatmap with default filter
Shake phone	
	Enable voice recognition

**Pre-condition: Scenario 1, 2**

### Scenario 3: View Country

User Intention	System Responsibility
Say "FOCUS"	
Say country name	
	Zoom-in on country
View country heatmap	

**Pre-condition: Scenario 1, 2**

### Scenario 4: View Country Information

User Intention	System Responsibility
Say "INFO"	

Say country name	
	Zoom-in on country and show UN information
View country UN information	

**Pre-condition: Scenario 1, 2**

### Scenario 5: Compare Two Countries

User Intention	System Responsibility
Say "COMPARE"	
Say first country name	
	Zoom-in on first country
Say second country name	
	Zoom-in on second country
	Display comparative visualisation
View comparative visualisation	

**Pre-condition: Scenario 3, 4, 5**

### Scenario 6: Clear Screen

User Intention	System Responsibility
Perform multi-finger gesture	
	Clear screen and show global heatmap with default filter
View global heatmap with default filter	

**Pre-condition: Scenario 1**

### Scenario 7: Access Filter Wheel

User Intention	System Responsibility
----------------	-----------------------

Perform long-press	
	Show the filter wheel
View the filter wheel	

**Pre-condition: Scenario 7**

### Scenario 8: Change Filter Wheel

User Intention	System Responsibility
Perform rotate gesture	
	Show next filter selection on wheel
View filter wheel selection	

**Pre-condition: Scenario 8**

### Scenario 9: View Filtered Map

User Intention	System Responsibility
View filtered heatmap	

### Scenario 9: View Help

User Intention	System Responsibility
Selected help bubble	
	Show help drawer
View help drawer
